Senior Advice Programme Manager

About IRMO

For over 40 years, IRMO has been led by and for the Latin American community, building deep ties and trust across the UK as we fight for a future where everyone can access their rights, live free from poverty and discrimination, and pursue their aspirations without barriers.

Everything we do, from front-line services to advocacy, aims to enable the development, agency and participation of all Latin Americans and Spanish and Portuguese-speaking migrants, including asylum seekers and refugees, as they settle and build their lives in the UK.

To address the daily discrimination and intersectional challenges that our communities face, we provide wrap-around support tailored to the unique needs of individuals and families, including high-quality advice and casework and development opportunities for all ages.

All of our services are culturally sensitive, delivered in Spanish and Portuguese, and are directly informed by the lived experiences of those we serve. We also advocate for long-term social and systemic change through advocacy, independent research and effective partnerships. Learn more at www.irmo.org.uk

About the role

This is an exciting opportunity to lead IRMO's Advice programme. As our Senior Advice Programme Manager, you'll manage a dedicated team and oversee a range of initiatives that provide high-quality information and advice services to respond to the changing needs of our community.

The Advice programme provides trusted information, resources, advice and casework in Spanish and Portuguese on key areas of need, including immigration, welfare entitlements, housing and homelessness prevention. IRMO is accredited by the Advice Quality Standard (AQS) and the Immigration Advice Authority (IAA) at Level 3. We are also members of Advice UK and receive second-tier support from Southwark Law Centre.

Alongside this, the programme works with local health boards to run initiatives designed to improve access to health services, such as HIV testing, sexual health and family planning advice and Chagas disease testing. You will also oversee IRMO's Community Support service, which manages community enquiries daily at our Brixton centre and through our helpline, provides emergency crisis support and coordinates our Community Interpreting service, as well as connects service users with internal or external support.

These initiatives support people facing difficulties and help them build the skills and confidence to navigate complex systems. All of our work is shaped by the views of our beneficiaries, keeping our services relevant and responsive.

As Senior Advice Programme Manager, you'll lead the strategic development of the Advice programme, ensuring our work is high-quality, impactful and responsive to the needs of our community. You'll help grow the programme by strengthening existing partnerships and developing new ones.

To succeed in this role, you'll bring solid experience as both a project and line manager, with a track record of overseeing multiple initiatives, delivering against KPIs and communicating impact clearly. You'll be confident in managing people and priorities, with a leadership style that brings out the best in your team.

You'll also have a strong understanding of the barriers Latin Americans face in accessing immigration, welfare, housing, health and other essential services in the UK, and a genuine passion for advancing the rights and welfare of migrants and refugees.

Key responsibilities

- Lead the delivery of the Advice programme's strategy, ensuring we provide high-quality, responsive services that reflect the changing needs of our community
- Manage IRMO's IAA registration and ensure compliance with IAA regulations, working closely with the Senior Immigration Adviser

- Manage existing partnerships effectively while building new relationships with relevant stakeholders to strengthen the Advice programme
- Lead, support and inspire the Advice team to perform at their best
- Stay up to date with policy developments and other external factors that may affect our work, identifying opportunities to strengthen and grow our services

- Establish and maintain effective systems for data collection and monitoring to track progress and impact
- Ensure mechanisms are in place to listen to and act on the views of beneficiaries regarding the quality and impact of our services
- Promote our Advice services and communicate their impact to funders, partners and wider stakeholders
